Free goods can not be returned or exchanged. Offer not available if receiving special market pricing.

Purchase \$500 of ANY EDS Products and receive a Turkish beach towel!

SafeSiders® HF Helical Flat Rotary Instruments

Developed by an endodontist, SafeSiders HF is designed to provide safe, predictable root canal preparation. Key features include:

- Unique Helical-Flat relieved reamer design – The flat-sided design, combined with a proprietary heat-treated NiTi process, promotes controlled engagement and efficient canal shaping.
- Reduced torsional stress – The relieved design lowers torsional force, helping to minimize instrument separation and enhance durability.
- Conservative canal preparation – Thorough cleaning while preserving dentinal structure, with little to no “pull-down” effect.
- Versatile motion options – Clinicians can use either reciprocation or continuous rotary motion, allowing flexibility based on preference and technique. All at a significant cost savings.

SALE
\$116.99 ea.

Assorted: 21mm or 25mm

SALE
\$108.99 ea.

Refills:
Glidepath 21mm (Size-20)
Shaper 21mm (Size-30/02)
Finisher 21mm (Size-30/04)
Glidepath 25mm (Size-20)
Shaper 25mm (Size-30/02)
Finisher 25mm (Size-30/04)

Feature	Competitor	Competitor Gold	SafeSiders HF
Motion Type	Reciprocating	Reciprocating	Rotary motion (with patented helical flat)
Material / Metallurgy	M-Wire NiTi	Gold-Wire NiTi	Proprietary heat-treated NiTi with helical flat design
File Design	Single-file reciprocating system	Upgraded design: variable taper, expanded size range (Small-Large)	Helical flat rotates opposite cutting flutes (reduces engagement, conservative cleaning of the canal with little or no pull down, increases flexibility, lower torsional force and less breakage)
Flexibility	Good (vs. earlier NiTi)	80% more flexible than original WaveOne	High flexibility: follows canal anatomy, reduces risk of ledging/perforation
Number of Files Needed	Usually, 1 primary file for some canals	Typically 1 glider + 1 shaping file	3-file system (Glidepath, Shaper, Finisher)
Reusability	Single-use	Single-use	designed and manufactured to be reused up to 3 times, economical
Key Advantages	Simple single-file reciprocation	increased flexibility, fatigue resistance, wider size options	Safer feel; reduced engagement; resistant to breakage economical; easy tactile control

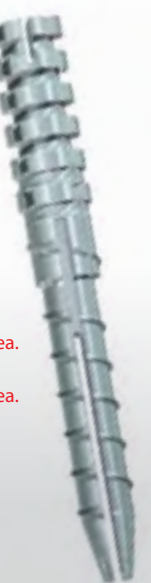

Flexi-Post®

- Split-shank technology – The shank gently closes upon insertion, delivering strong mechanical retention with reduced stress to the root structure.
- Efficient dentin engagement – The post cuts into dentin rather than displacing it, supporting secure placement.
- Debris removal design – Helps remove dentinal debris during placement for improved ease of insertion.

SALE
FROM **\$299.99** ea.
TO **\$800.99** ea.

Feature	Competitor	Flexi-Post
Design Type	Parallel-sided, passive post	Parallel-sided, split-shank design
Retention Mechanism	Cement-retained (passive fit)	Self-threading, mechanically retained
Threading	No threads (smooth surface)	Split, flexible threaded design, providing stronger mechanical retention
Stress Distribution	Lower stress due to passive placement	Designed to reduce stress with split shank, actively engages dentin
Material Options	Stainless steel, titanium	Stainless steel and titanium options
Clinical Preference	Preferred in roots with thin dentinal walls	Preferred when additional retention is needed

This offer may not be combined with any other offer or promotion. Offer valid on purchases made from April 1, 2026 through June 30, 2026 only. The dealer invoice must be received by EDS no later than July 31, 2026. Purchases must be on one dealer invoice. Invoice may be mailed to EDS/89 Leuning Street, 2nd Floor/South Hackensack, NJ 07606, E-mailed to info@edsdental.com. Amazon is not sponsors of this promotion.

The Future Of Dental Office Design

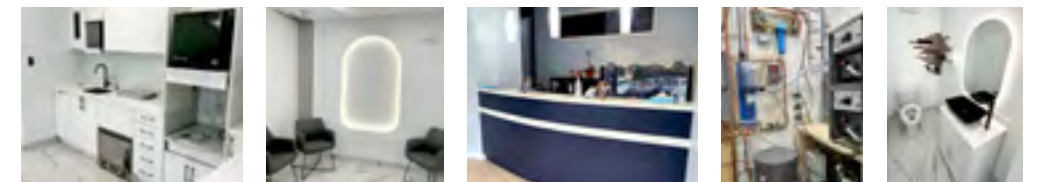

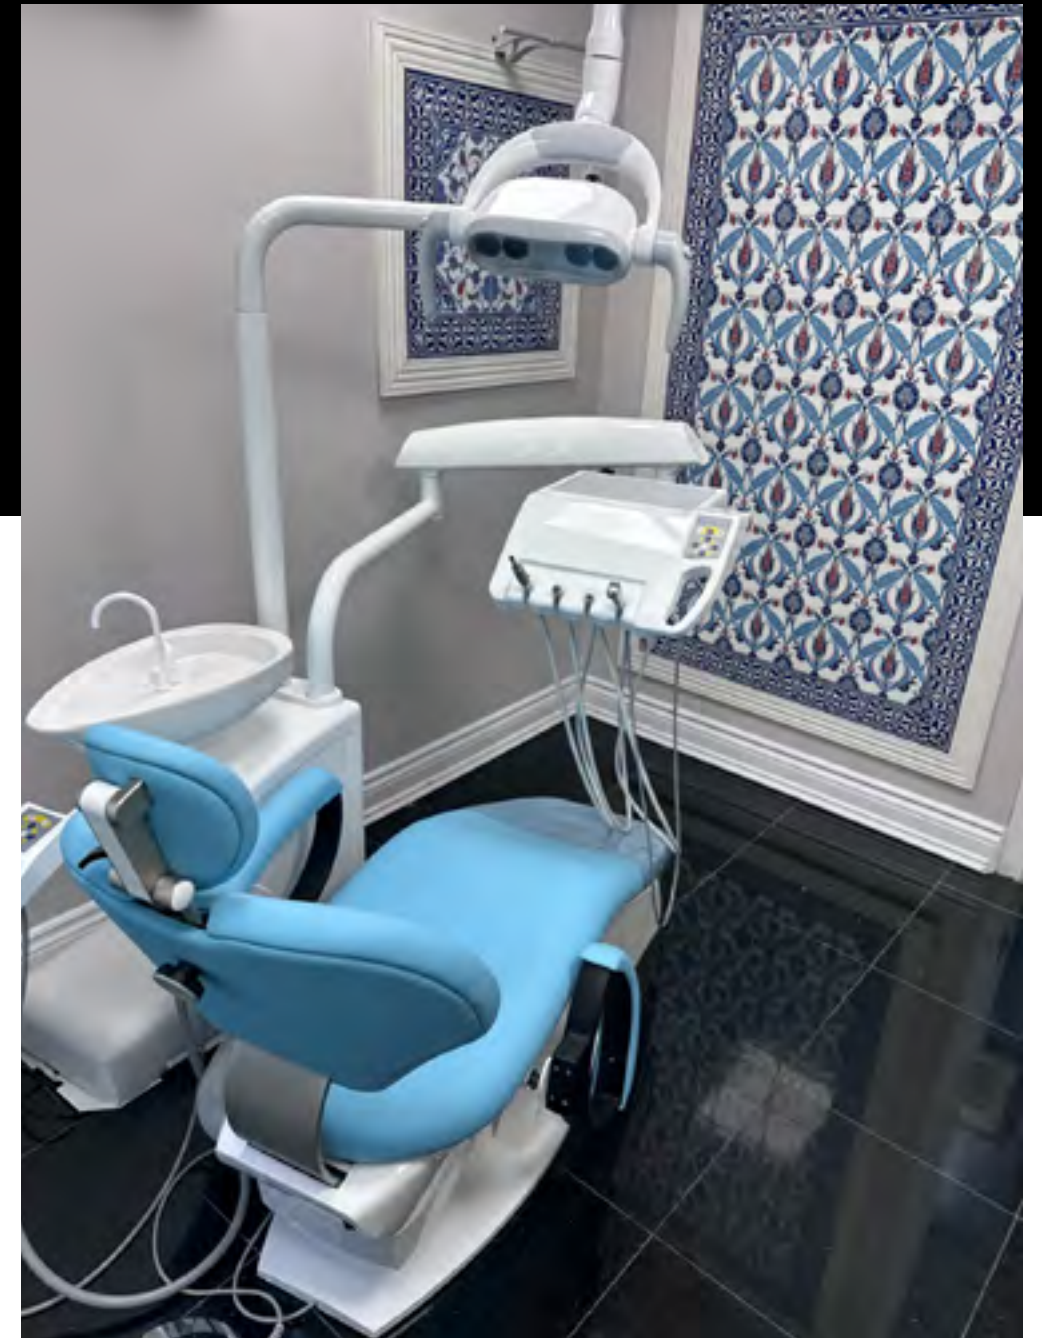

It all starts with finding the best location for you, developing the preliminary design and obtaining the permits and licensing applications. Then we bring in our mechanical engineers, equipment specialists and interior designers. Making sure that your new practice looks great and meets all current standards and requirements. Your patients and employees will love your new, stylish, efficient and comfortable environment.

New Office Builds and Custom Remodeling The Top 10 Design Trends of 2026

An Innovative New Design Creates:

- A Modernised Working Environment
- An Efficiency Focus
- Improved Patient Care
- An Easy & Productive Workflow
- Enhanced Patient Comfort
- Plus an Updated 2026 Look

A four step process, from modern renovation to a comprehensive new build, we make sure your vision and dreams come to life. We blend our expertise and innovation with precision and care that makes you happy and your patients comfortable.

SPECTRAL VISION. INFORMED DECISIONS.

INTRODUCING THE VELscope Mantis

VELscope Mantis is a state-of-the-art oral mucosal examination tool to assist the dental professional in performing comprehensive oral examinations. The Mantis integrates both traditional white light visualization, polarized white light visualization and blue-light-induced fluorescence visualization into the same device.

Innovative Multi-Mode System for Versatile Oral Screening + Discovery

Non-Polorized Light
Non-polarized white light visualization is the traditional method for examining tissue, providing a combination of surface reflections that highlight texture and topography, along with color variations that indicate the state of the underlying tissue.

Polorized Light
Polarized white light visualization excels at showing subtle colour tissue changes by improving colour response and eliminating surface reflections than can be distracting and obscure underlying tissue.

Fluorescence Light
The new VELscope Mantis builds upon its predecessors by increasing field of view and enhancing filtering for a brighter, improved image with increased yellow/orange spectral content.
