DF Dental Solutions

SPEND $2000+, GET $200 GIFT CARD!

Promotion valid July 1 – September 30, 2026. Receive a $200 Amazon gift card with each single supplies order of $2,000 or more (before taxes and shipping). Equipment purchases do not qualify toward the $2,000 threshold or this promotion. Orders cannot be combined to reach the $2,000 minimum. Gift card will be issued via email to the account contact on file, or to an email address specified by the customer at the time of purchase, once the invoice has been paid in full. Multiple qualifying orders during the promotional period each earn a separate $200 gift card. Cannot be combined with other offers, discounts, or promotions. DF Dental Solutions reserves the right to modify or cancel this promotion at any time without notice.

Dental Office DESIGN

New Office Builds and Custom Remodeling

1. PLAN
2. DESIGN
3. BUILD
4. FURNISH

We take care of it all, so you can focus on your practice.

Whether it's a modern renovation or a comprehensive new build, our four-step process ensures your vision and dreams come to life. We blend our expertise and innovation with precision and care that makes you happy and your patients comfortable.

It all starts with finding the best location for you, developing the preliminary design and obtaining the permits and licensing applications. Then we bring in our mechanical engineers, equipment specialists and interior designers. Making sure that your new practice looks great and meets all current standards and requirements. Your patients and employees will love your new, stylish, efficient and comfortable environment.

Ray America

RAYSCAN α - 2D
RAYSCAN α+ 3D

8×8 or 16×10 CBCT with or without Ceph

This cutting-edge technology captures a comprehensive view of your patient's oral health, allowing you to identify hidden issues and plan treatments with unmatched accuracy. The Rayscan Alpha Plus supports Free FOV, allowing for flexible adjustment from 4cm x 3cm to 16cmx10cm FOV according to the clinical purpose. Cephalometric Option Available.

RAYQuantum

(FOV 10×10 & 16×10) with or without Ceph

RAYQuantum delivers outstanding clinical value with its compact footprint and advanced 3D imaging technology including Adaptive Moving Focus (AMF) which ensures a quality panoramic every time. The expanded 16x10 FOV of RAYQuantum captures extensive anatomical detail in a single scan, supporting accurate diagnostics and thorough treatment planning. Cephalometric Option Available.

RIOSensor+

The Intraoral Sensor That Does It All

Designed for versatility and comfort, our sensors deliver precise imaging while ensuring a perfect fit for patients of all ages—whether pediatric or adult—making every scan smooth and stress-free. Two sizes to accommodate personal patient needs.

RAYFace

One-shot 3D Face Scanner

Introducing the world's first dental-specific 3D facial scanner — designed to capture a complete facial scan in less than 0.5 seconds. The fastest and most user-friendly facial scanner on the market, RAYFace, was made specifically for the dental industry.

SPECTRAL VISION. INFORMED DECISIONS.

INTRODUCING THE

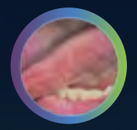

VELscope Mantis

NEW

VELscope Mantis is a state-of-the-art oral mucosal examination tool to assist the dental professional in performing comprehensive oral examinations. The Mantis integrates both traditional white light visualization, polarized white light visualization and blue-light-induced fluorescence visualization into the same device.

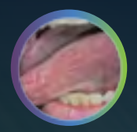

Innovative Multi-Mode System for Versatile Oral Screening + Discovery

Non-Polorized Light

Non-polarized white light visualization is the traditional method for examining tissue, providing a combination of surface reflections that highlight texture and topography, along with color variations that indicate the state of the underlying tissue.

Polorized Light

Polarized white light visualization excels at showing subtle colour tissue changes by improving colour response and eliminating surface reflections than can be distracting and obscure underlying tissue.

Fluorescence Light

The new VELscope Mantis builds upon its predecessors by increasing field of view and enhancing filtering for a brighter, improved image with increased yellow/orange spectral content.
